Provided with a badge		Last SET	

The Amateur Radio Emergency Service (ARES) is a voluntary organization of licensed radio amateurs who have registered their capabilities and equipment for providing emergency communications as a public service to the community. The purpose of ARES is to furnish communications in the event of natural disaster when regular communications fail or are inadequate.

Sponsored by RAC, the ARES functions at the local level to meet local communications needs. The ARES has a long history of public service going back to its formal inception in 1935. Since that time the ARES has responded countless times to communications emergencies. Experience has proven that radio amateurs respond more capably in time of emergency when practice has been conducted in an organized group. There is no substitute for experience gained before the need arises.

The ARES in each locality operates under the direction of the Emergency Coordinator (EC), whose function is to direct the activities of the ARES to maintain a state of readiness.

To register in the ARES, fill out then send or give this detachable Registration Form directly to your EC, or to RAC HQ for forwarding to your EC. Membership in RAC is desirable but not required for registration.

Registration does not require possession of any special equipment. All amateurs can be of assistance to the ARES. There is room in ARES for every amateur regardless of class of license, equipment owned, or personal circumstances. Won't you join us in providing this essential Amateur Radio Service?
